## SUMMARY

Passionate and motivated **BSc.CSIT** student with hands-on experience in **React.js** , **Next.js** , and **Tailwind CSS**. Adept at building responsive, user-friendly web applications and solving real-world problems through collaborative projects. Always eager to learn, grow, and contribute to impactful software development.

Currently seeking **internship** or **junior developer** roles to further expand my skills in full-stack development and contribute to dynamic tech teams.

## ACHIEVEMENTS

**3rd Place – IS Hackathon**

Developed "**AdharCare**" with ReactJS and NodeJS. Among **top 3** out of 20+ teams. Solved real-world health service access issue.

## SKILLS

- HTML5, CSS3, JavaScript (ES6+) - Skillful
- React.js (Hooks, Context API) - Skillful
- Next.js (Basic) - Beginner
- Tailwind CSS, Responsive Design - Skillful
- Git, Github - Skillful

### The Ultimate React Course

Udemy (Jonas Schmedtmann) / 2025

- Mastered React.js (Hooks, Context API)
  and Next.js fundamentals.

- Built interactive UIs with Tailwind CSS and state
  management using Redux.

## PROJECTS

### Omnifood

Built a personalized nutrition website with a modern UI using HTML,
CSS, and JavaScript. Deployed on Netlify.
https://omnifood-suhzeet.netlify.app/

### AdharCare

Group project developed with React and Node.js. Helped users
access affordable healthcare services online.
